

Oakland Partner Portal – Amenities Update

Follow these instructions to update your listing to show what your business is doing to be COVID compliant.

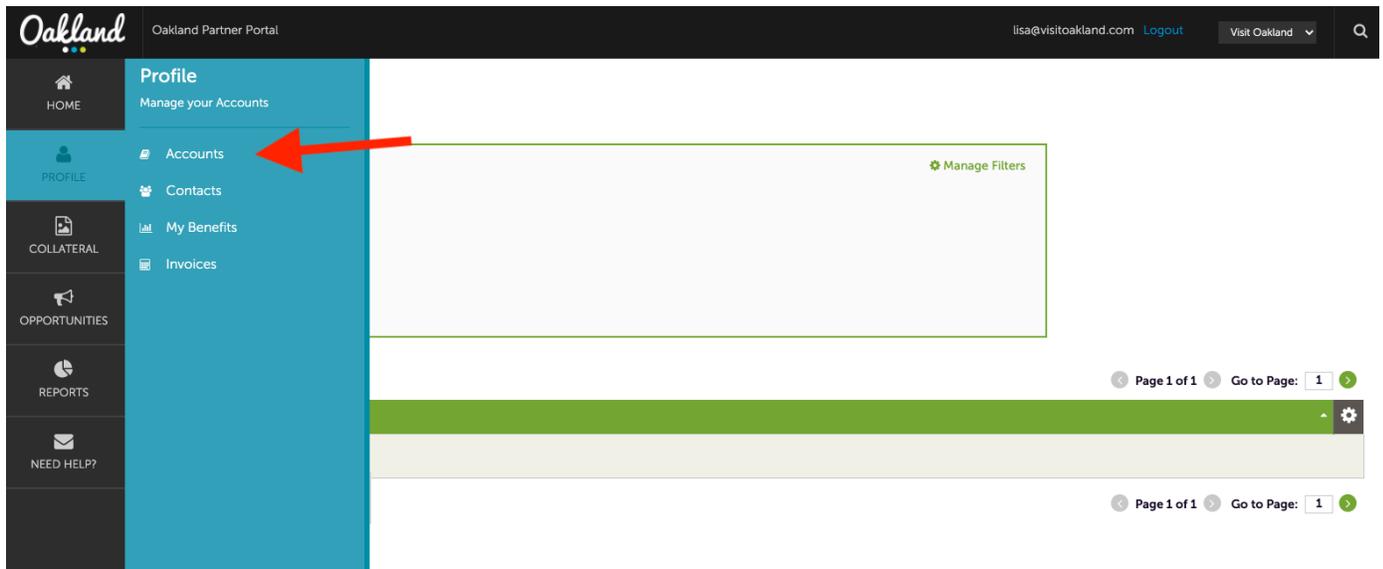

Updating [Amenities](#) on Oakland Partner Portal

Amenities help users on the website filter through business listings to find exactly what they are looking for.

- We have added a new COVID-19 related category of amenities called '**Business Continuity**'. These amenities will allowed website visitors to find businesses (hotels, restaurants, shops, bars, etc.) that are implementing new safety guidelines that may make them feel more comfortable.
 - o *Amenity types may look a little different based on the type of business you have. All amenities related to COVID-19 will be in the 'Business Continuity' section.*
- We have also added an '**Outdoor Seating**' amenity for restaurants.

Below are instructions of how to find the 'Amenities' section in the Oakland Partner Portal:

1. Click on the Profile section in the left navigation bar.
2. Select 'Accounts'

3. Select the dropdown next to your Account
4. Click 'Manage Amenities'
